STRANGLER THE INFANT

A Cord Was the Instrument with Which the Killing Was Done.

The dead body of an infant was found in No. 7 reservoir of the Scranton Gas and Water company, by Frank and Henry Misch, who were fishing there, about 3 o'clock yesterday morning.

The child's neck was tied about with a shoestring, which was drawn so tight that the skin was broken. There is no doubt that the child was choked to death and afterwards placed in the water. The water more than three days and was evidently killed at birth.

Coroner Roberts was notified and ordered the remains taken to Undertaker Letchworth's, where he afterwards performed an autopsy, which proved conclusively that the child was murdered.

So far as can be learned there is no clue as to who the parents of the child are. Coroner Roberts empaneled a jury, which, after hearing the facts in the case and the statement of the coroner, rendered a verdict to the effect that the child was its death as the result of strangulation at the hands of parties unknown to the jury.

The jurors were Patrick Keyes, T. P. Letchworth, Thomas Henwood, H. M. Bone, H. Rottger and Charles Curt.

TO ELECT A MAYOR AND A CITY SOLICITOR

Democrats Quietly Call a Caucus of Members of Both Branches of Councils for Tonight. Purpose They Have In View.

Scranton, May 1, 1901.

Dear Sir: There will be a joint caucus of the Democratic councilmen at 8 o'clock p. m., Thursday evening, May 2, before the meeting of council.

Business of the utmost importance is to be transacted. You are requested to be present without fail. Very truly yours,
Committee of Joint Councils.

The above letter was received yesterday by every Democratic member of council. It was typewritten, even to the address, and enclosed in a plain envelope.

Every effort was made by the promoters of the meeting to keep it a secret, but before last night had fairly set in the meeting and its "business of utmost importance" had leaked out.

The caucus is for the purpose of nominating a mayor and city solicitor, in anticipation of the Ripper act being declared unconstitutional. The election is to take place immediately after the caucus.

The Democrats think the Ripper act will be declared unconstitutional and that the decision is likely to be handed down next Monday. Just what causes them to father this thought, other than a wish to that effect, is something that has not been disclosed, but it is definitely known that they are feeling almost confident the act will be invalidated and that the invalidating will occur within a week.

If the Ripper act is killed, Scranton, at once, falls back on the old second-class city laws, such as have for years governed and still are governing Pittsburgh and Allegheny.

Those laws prescribe that "in case any office of an elective officer shall become vacant before the expiration of the regular term thereof, the vacancy shall be filled by the city council until a successor is elected and qualified; and such successor shall be elected for the unexpired term at the first annual city election which occurs after the vacancy shall have happened."

The Democrats contend that the Ripper is unconstitutional and that by accepting the office of recorder and neglecting to perform the duties of mayor, James Mole caused a vacancy in the office of chief executive. The

TAYLOR PRAYED FOR MERCY.

He Was More Successful Than His White Wife.

A rather peculiar scene was enacted in Magistrate W. S. Millar's office yesterday afternoon, when Payton Taylor, tall, brawny and colored, with steel manacles on his wrists and a half-smoked cigarette in his hand, implored the magistrate not to send him to the county jail.

"Have pity on a poor colored man, alderman," he prayed and fell on his knees before the latter. His entreaties were so frantic that Magistrate Millar finally relented, and dismissed him. The charge dated back to last February, Taylor still owing a fine then imposed for disorderly conduct.

Taylor's white wife, Kate Taylor, and Kate Mulhern, two residents of Dunn's patch, were also arraigned before the alderman charged with disorderly conduct by George Johnson. As it was the third or fourth appearance of the Mulhern woman in his court, some charge, no money was shown and she was fined \$50, in default of which she went to the county jail for six months, while Kate Taylor went up for thirty days in default of a \$10 fine.

The latter followed the example of her spouse in creating a scene and with many voluble accompaniments declared she would not walk to the jail. The patrol wagon was therefore summoned and she was then removed from the office.

Their surprise-party caucus having selected candidates, they can go into their respective meetings, message by committee from some one to the other, a joint meeting is desired to fill vacancies, and with their majority of two, proceed to do pretty much as they please.

All that is necessary to carry out their programme, they think, is that they shall have at hand twenty-two votes. These they have, with one to spare, the select council standing ten Democrats to eleven Republicans, and the common council, thirteen Democrats to eight Republicans.

Later last night a leading member of the Democratic side in select council was approached timidly, by a Tribune reporter, with the query: "What will the Democrats do at the caucus tomorrow night?"

"The question nearly took him off his feet. 'What do you know about that?' he exclaimed inquired. 'Where did you hear that?'"

"Just guessed it," the reporter blandly replied.

"Well, if you point anything about that you will only hurt yourself. If there is anything said about it, the whole thing is spoiled. Just keep that to yourself and you will have a sensation tomorrow night that will give you a corking good story."

The reporter said he would think it over. He decided to print it, but label it confidential.

Therefore the reader will consider this strictly confidential.

"You can say for a certainty," declared Sebastian Vaughan yesterday, "that Scranton will have a full paid department inside of three months. The recorder is agreeable to it. Director Hitchcock won't be satisfied with anything else. Chairman Chittenden and alpin enthusiastically favor it, and I have yet to find any influential councilman who is opposed to it."

"We now have thirty-six permanent men. The appropriation ordinance provides for twenty-two more. Director Hitchcock says he can manage nicely with about seventy-five or eighty men, I understand. We will also have eighty-five or ninety men. This calls for an additional appropriation of \$18,000 or \$19,000. The special license ordinance now being framed, imposing taxes on corporations, will be rushed through as soon as the Ripper matter is settled, finally, and with that ordinance in operation there will be money in plenty to meet the expense of expanding the fire-fighting force. If this ordinance should be delayed, we could fall back on the additional revenue that is to come from liquor licenses not already included in the controller's estimate, and this, according to our figures, will be sufficient to pay the salaries of the necessary extra men for the second half of the year, at least. Next year we could fully provide for them."

The fact that the volunteer companies are legislated out of existence, and that many of their members have applied for places as permanent men, will tend to win commendable favor for the new project.

The outlook standing in the way of a culmination of the plan is the lack of ready money, but that is not an insurmountable difficulty, as Mr. Vaughan explains, so it is quite probable, it would seem, that Scranton's long cherished dream of a full paid fire department is at last to be realized.
